# THE HISTORY OF MISSOURI RIVERBEND

In the heart of the northern prairie, where the Missouri River winds past wide open landscapes and long winter nights, a bold idea took shape in August of 2024 – a dream to craft the ultimate 4-season adventure unit. That vision became the **Missouri Riverbend series**, a groundbreaking lineup of *Ice Castle Fish Houses*, brought to life exclusively by **River City Sports** in Bismarck, North Dakota.

This wasn't just about building another fish house. It was about changing the mindset of outdoor enthusiasts who had long seen ice fishing units as rugged, utilitarian spaces – great for the frozen lake, but less inviting for year-round comfort. The Missouri Riverbend series flipped that thinking on its head.

## A New Standard in Outdoor Living

At its core, the Missouri Riverbend project harnesses the legendary engineering and innovation of Ice Castle Fish Houses – the undisputed leader in drop-down, hardwater ice fishing shelters. Known for their durability and extreme customizability, Ice Castle units have long been a favorite among serious anglers. But the Riverbend series aimed to go further.

Every model in the Missouri Riverbend line is built with versatility in mind – ready to serve as a cozy ice fishing hub in January, and a fully equipped camper in July. From the subzero mornings on Lake Audubon to summer weekends in state parks, these units are engineered for all-season performance without compromising comfort.

## Exclusively Yours – Only at River City Sports

This premium series is not available just anywhere. River City Sports, a cornerstone of the Bismarck marine powersports community, holds the exclusive rights to the

Missouri Riverbend collection. Their deep understanding of local needs and outdoor culture made them the perfect partner to bring this dream to life.

Their collaboration with Ice Castle has created a lineup that's as functional as it is refined – models that are safer, more comfortable, and more luxurious than anything before. Outfitted with high-efficiency construction methods, luxury features, smart storage solutions, and modern interiors, the Riverbend units aren't just trailers – they're mobile base camps.

## Catch Dinner Through the Floor – Or Grill It Under the Stars

What sets the Missouri Riverbend apart isn't just what's inside – it's what it enables. These adventure units are designed to tackle harsh frozen terrain and then transition seamlessly to warm-weather camping. With built-in fishing holes, rugged insulation, and superior mobility, they let you fish for tonight's dinner right through the floor in the dead of winter. Come summer, open the doors, roll out the awning, and enjoy the breeze.

This is not a unit that compromises. It's not ice fishing first, camping second – it's everything, all at once. And it's built for those who demand the best of both worlds.

## The Legacy Begins

The Missouri Riverbend series may have launched in 2024, but it carries the spirit of a legacy in the making – a new benchmark for what an all-season fish house can be. It's the future of outdoor recreation, forged in the heart of North Dakota, built for those who don't just chase seasons – they live in all of them.
